RE: Case No. 2005-00048

Ms O'Donnell:

This letter serves as the annual progress report, as required, on the above referenced case. The installation of our AMR Project is 60% complete (7,000 meters), with approx. 4,500 customers brought up to current billing status.

All eight substation installations are complete, with communication lines up and running. We are able to pull meter readings daily and use this data for billing and other related functions.

We estimate that our AMR project will be completed on time – by the end of 2007. If you have any questions or need any further information, please let us know.

Sincerely,

A handwritten signature in cursive script, appearing to read "Bobby Sexton".

Bobby Sexton
President/General Manager
